## Story of Change:

Ankita Rakshit, 22, was admitted to the Spoken English program in November 2022. Her graduate studies in journalism and mass communication were pursued. She had financial problems, so she was actively hunting for work. She had several opportunities to succeed in interviews, but she was unable to do so because of her limited English proficiency. She was quite depressed about this situation when she joined Seva Kendra Calcutta. However, after completing a three-month course and several counselling sessions, she was able to conquer her phobia. We are pleased to report that she is currently employed by a reputable organization and is really appreciative of Seva Kendra Calcutta.
