A hands-on training program was conducted at Sitarampur village where Master Trainers assembled 100 solar lanterns. The session provided practical knowledge on assembling and testing solar lighting systems. The initiative aimed to strengthen technical skills while promoting the use of renewable and sustainable energy solutions in rural communities under the NRM project.

Under Project SAMBANDH, Seva Kendra Calcutta organized a health outreach programme on 13 March 2026 at Birla Corporation Limited, Durgapur Cement Works, Paschim Bardhaman, for truck drivers and transport workers.

The programme included eye screening (136 beneficiaries, 135 spectacles distributed), general health check-ups (100 beneficiaries with health kits), and dental screening (84 beneficiaries), promoting preventive healthcare and improved well-being among transport workers.

On 14th March 2026, a health and hygiene session was conducted for 21 street children . They learned basic habits like handwashing and brushing. Each child received a hygiene kit, and the program concluded with a nutritious meal, making it both educational and joyful.

A TB awareness training was organized for community leaders at Dhapa Dhipi . The session covered symptoms, early detection, and referral processes. Post-training results showed strong improvement, equipping participants to spread awareness and support early diagnosis.

A Plantation Drive was successfully conducted on 17th March 2026 in collaboration with the Eco Club of Bhuthnath Girls High School. A total of 30 students actively participated, and 20 indoor plants were distributed, with each plant assigned to two students to ensure proper care and responsibility.

The initiative aimed to promote environmental awareness and encourage students to take an active role in nurturing nature. The activity was engaging and meaningful, inspiring young minds to adopt eco-friendly habits and contribute towards a greener, more sustainable future.

Kolkata, March 24, 2026: A yoga session was successfully conducted at the Narkeldanga Study Centre for children and their mothers. Led by Madhumita Ma'am, the session focused on improving physical health and concentration. A total of 10 participants attended, benefiting from personalized guidance due to the small group size. The session was engaging and well-received, promoting overall well-being and mindfulness among participants.
