The aim of their visit was to observe the different kinds of TLMs developed for the teaching at remedial learning centers and to observe the multi-level teaching process in two centers.

INSPIRING EDUCATIONAL GROWTH

EMPOWERING MINDS, EMBRACING SUSTAINABILITY

ECO-FRIENDLY

On 31st May 2024, SKC Director - Rev Fr. Anthony Rodrick along with Mr. Sukhendu Bank , from SKC's Sr. Consultation team visited the Nazareth training center at West Midnapur district, to have a brief staff interaction on the 5 vital projects implemented from the Balihati unit and to boost the confidence level of the staff. The second agenda for the day was a fantastic initiative on the 'Jute Bag distribution' by the Project 'Asha Ki Kiran' supported by SAC, to 50 best students in the coaching center ,to acknowledge and appreciate their performance , regularity and progress in the previous academic session.

INNOVATIVE

This 'Jute Bag Distribution' was not only to promote - Jute, as an eco-friendly alternative to replace plastic but at the same time educating the students and their parents on the importance of sustainable living. It was a practical step towards the Lifestyle changes for the Environment movement, which encourages mindful utilization over mindless consumption. This initiative has surely inspired the students and their parents to make conscious choices that have a positive impact on the environment.
